PARLIAMENTARY
ELECTIONS**

2011 to 2014

Tasmanian
Electoral Commission

**REPORT
ON
PARLIAMENTARY
ELECTIONS**

2011 to 2014

To The Honourable Jim Wilkinson
President of the Legislative Council, and
The Honourable Elise Archer
Speaker of the House of Assembly

We are honoured to submit this report on Tasmanian parliamentary elections conducted during the period 2011 to 2014.

The Tasmanian Electoral Commission has statutory responsibilities for the independent and impartial conduct of elections and referendums including:

- House of Assembly elections, by-elections and recounts;
- Legislative Council elections and by-elections;
- State referendums;
- the implementation of electoral boundary redistributions;

This report on parliamentary elections is in addition to the Tasmanian Electoral Commission's annual report and has been prepared in accordance with Section 13 of the *Electoral Act 2004*.

Changes to the membership of the Tasmanian Electoral Commission

The Tasmanian Electoral Commission comprises the Chairperson, the Electoral Commissioner and one other Member. The inaugural members of the Commission were Richard Bingham (Chairperson), Liz Gillam (Member) and Bruce Taylor (Electoral Commissioner).

Bruce Taylor retired as Electoral Commissioner on 4 August 2010. Following a period acting in the role, Julian Type was appointed as Electoral Commissioner on 4 April 2011. Liz Gillam has served as Chairperson since 7 September 2009 and Christine Fraser as Member since 30 November 2009.

Legislative Council electoral boundaries

The *Legislative Council Electoral Boundaries Act 1995* requires that a redistribution commence when nine years have elapsed since the appointment of the previous Redistribution Committee. As the Committee was last appointed on 17 October 2007, a new Committee and Tribunal are expected to be appointed within 60 days from 17 October 2016.

House of Assembly electoral boundaries

Historically, the Tasmanian Parliament has chosen to adopt Commonwealth House of Representatives boundaries for the purposes of House of Assembly divisions by amending the *Constitution Act 1934*.

The Australian Electoral Commission will be due to direct the commencement of a redistribution of Tasmanian boundaries within 30 days from 16 February 2016, seven years after the determination of the current boundaries. However, if a federal election remains due later that year, the direction would be deferred until after the first meeting of the next following House of Representatives. Given that the last federal redistribution took slightly more than one year to complete, this could have the effect of requiring the general election for the House of Assembly due in 2018 to be held on current boundaries.

House of Assembly general election and recount

A general election for the House of Assembly was held on 15 March 2014.

On 26 May 2011 a recount was conducted to fill a vacancy in the House of Assembly division of Denison caused by the resignation of the Honourable David Bartlett.

Legislative Council elections

Since the previous report, the following Legislative Council elections have been held:

- | | |
|----------|---|
| May 2011 | Derwent (by-election), Launceston, Murchison and Rumney |
| May 2012 | Hobart and Western Tiers |
| May 2013 | Montgomery, Nelson and Pembroke |
| May 2014 | Huon and Rosevears |

Damaged ballot papers

Unfortunately, in the course of the 2014 election, 163 division of Denison postal ballot papers were irreparably damaged during the operation of a letter opening machine. While this accident could not have affected the outcome of the Denison election, it has slightly inflated the rate of informal voting in that division and compelled us to employ an additional category in the informal ballot paper survey on page 100.

Note re terminology

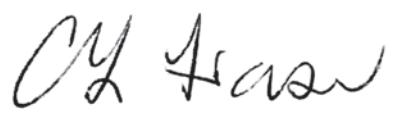

The nine Australian electoral commissions have agreed to move towards standardising terminology used in reporting election statistics. The reader who compares the current to previous reports may notice some minor changes in labelling.

Liz Gillam
CHAIRPERSON

Julian Type
ELECTORAL COMMISSIONER

Christine Fraser
MEMBER

July 2014

Tasmania's Hare-Clark Electoral System

The Hare-Clark electoral system is a Single Transferable Vote (STV) method of proportional representation used in multi-member electorates. Single transferable vote means that a ballot paper moves between candidates as determined by the elector's preferences.

Background and features

Where does the name Hare-Clark come from?

Thomas Hare was an Englishman who, in 1856, proposed the idea of a proportional representation election system which was further developed and became known as the Hare system. Andrew Inglis Clark, Tasmanian Attorney-General 1888 and a member of the Tasmanian Parliament, introduced a modified version of the Hare system into Tasmanian law in 1896. This system is now known as the Hare-Clark electoral system.

Representation in the Parliament

Under Hare-Clark, parties, groups and independents are elected to the House of Assembly in proportion to their support in the electorate. The composition of the House reflects the proportion of primary votes on a Statewide basis.

Robson Rotation

Robson Rotation is a process of rotating candidate names within a column so that favoured (top and bottom) positions are shared equally between all candidates. Neil Robson, a member of the House of Assembly, introduced the process to the Tasmanian Parliament in 1979.

Need for parties to stand extra candidates

Parties and groups usually nominate more candidates than they expect to be elected, in order to provide a pool of candidates to contest any recount to fill a vacancy.

As a result, the voters are provided with a choice of candidates within each party, as well as a choice of candidates across parties, groups and independents.

Recounts

When a vacancy occurs a new member is elected by a recount process based on votes cast at the previous general election. Only unsuccessful candidates at the general election are eligible to contest the recount.

Only the ballot papers which were used to elect the vacating member are distributed in the recount. These votes are distributed to contesting candidates. The candidates receiving the least votes are excluded until a candidate receives a majority ($50\% + 1$).

Is Hare-Clark the same in Local Government elections?

The Hare-Clark electoral system is used for Tasmanian local government elections, with some changes. The number to be elected varies between Councils, depending on the size of the Council and whether there are any by-elections. Also, candidates are listed in a single column, and Robson rotation is used for councillor elections and, since 2005, for mayoral elections.

A broad description

How do you cast a vote

The ballot paper directs the voter to— place the numbers 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, and so on as the case requires, beside the names of the candidates in the order of his/her preference.

To be formal, a ballot paper must have at least the numbers 1, 2, 3, 4, and 5 with no repetitions or omissions, otherwise it will not be counted.

How is a candidate elected?

A candidate is elected when his/her total number of votes equals or exceeds the quota.

What is the quota?

The quota is the lowest number of votes a candidate needs to be certain of election.

To calculate the quota, the number of formal votes is divided by one more than the number of candidates to be elected (rounded up to the next whole number). For the House of Assembly, which elects five members per electorate, the quota is one sixth or 16.7% of the formal votes.

If five candidates each receive a quota (just over one sixth of the formal vote) then less than one quota of the votes remain.

How votes are counted

The first step is to distribute all ballot papers to the candidates according to each ballot paper's first preference. The quota is then calculated from the total formal vote.

If any candidate(s) receives more votes than the quota, he/she are declared elected, and the excess votes (surplus) are passed on to continuing candidates. Following the distribution of each surplus, any candidate(s) who has reached the quota is declared elected; and any resulting surplus again passed on.

Once all surplus votes have been distributed the candidate with the fewest votes is excluded and all of their votes passed on to continuing candidates. Further candidates are excluded until another candidate reaches the quota.

The process of distributing surplus votes and excluding candidates continues until five candidates reach the quota. In some cases the final candidate(s) will be elected without reaching the quota as all other candidates have been either elected or excluded.

Do you always need a quota to get elected?

In House of Assembly elections, it is common that the last elected member in a division is elected without obtaining a quota. In some cases the last two elected members in a division are elected without each obtaining a quota.

During the distribution of preferences, some votes are "lost" from the count. A small number are lost due to rounding of fractional numbers. A more significant number of votes are "exhausted" toward the end of the count, as many ballot papers do not show a preference for any remaining candidate.

Where the contest for the last seat is close, it is common for the remaining two candidates to both have less than a quota. The candidate with the least votes is excluded, and the other candidate elected without reaching the quota. The more votes that are lost during the scrutiny, the more likely that not all elected members will obtain the quota.

A less common situation occurs where remaining three candidates are contesting the last two seats. In this case, the candidate with the least votes is excluded, and the other two candidates elected without either reaching the quota.

Bass

Repetitions & Omissions

(Division of Bass)

This table shows a break up of the informal ballot paper category "One first preference, but includes repetitions or omissions between 2 and 5". The number of ballot papers are listed against the candidate who received the first preference, and by the length of the sequence of consecutive unpeated numbers.

	Repetitions					Omissions					Total
