Good Morning Julian

Just a few points of discussion from your phone conversation with Greg yesterday

- Happy with name change to Western Tiers but not Great Western Tiers
- Understand correct nomenclature is Great Western Tiers, but that term is rarely if ever used by Tasmanians per se
- They are simply know as the Western Tiers
- Many people have commented to me, including some of my fellow Members that whilst they support the name Western Tiers, the word "Great" is unnecessary and superfluous
- The extra wording also provides a logistical problem for space on business cards, signage etc
- I am happy to meet with the Tribunal to discuss the matter if necessary

Regards
